## **Professional Disclosure Statement and Informed Consent**

### **Qualifications/ Experience**

Welcome to our practice. I appreciate the opportunity to be of help and look forward to us working together. This document is designed to inform you about my background and philosophies and to ensure you understand our professional relationship.

I am a North Carolina Licensed Clinical Social Worker (#C014128) with the North Carolina Board of Licensed Clinical Social Workers having earned my Master of Social Work (MSW) from East Carolina University. Before this I received a Bachelor's in Social Work from the University of South Carolina.

My experience includes working with adults, adolescents, and children as well as families and couples. I have over four years of previous work experience doing therapy with individuals, families and couples in an outpatient setting. In private practice my plan is to see adolescents and adults with concerns related to personal trauma (PTSD), depression, anxiety, adjustments/life transitions, relational problems, eating disorders, school/work difficulties, women's issues, grief and loss, self-esteem issues, parenting difficulties and family conflict. I feel comfortable serving most all mental health disorders and will work to ensure proper treatment is taking place and can refer out if there is a better fit.

### **Philosophy and the Psychotherapy Process**

As a clinician, I embrace a strengths-based perspective, and I borrow from many different theory bases for psychotherapy in aiming to understand and meet the individual needs of each person and of each family. These theories include cognitive-behavioral, solution-focused, reality-based, mindfulness-based and family systems, and biopsychosocial theories. I attained specialized training in Eye Movement Desensitization and Reprocessing (EMDR) therapy to help individuals heal from personal trauma and other life experiences. This can be helpful in many therapeutic scenarios including but not limited to those with PTSD, depression, attachment issues, and anxiety.

Techniques that I utilize may include dialogue, psycho education, relaxation, reframing of negative thoughts, positive decision-making, EMDR, mindfulness or writing/art exercises.

We will work together to establish realistic and attainable goals for you to achieve. These goals are flexible and we may modify them throughout the therapy process as your needs change. Active participation in and out of session is essential to your success. I will often assign homework or tasks between appointments to help strengthen the skills you acquire during therapy and empower you to resolve issues after the therapeutic relationship has ended.

In regards to length of treatment in therapy, an estimate for termination can be discussed during our sessions but it is just an estimate. Therapy is a unique process for each individual and duration and success of treatment will vary according to acuity of presenting issues. In saying that, you have the right to terminate therapy at any time. I ask that if you decide to discontinue therapy that you discuss this with me before doing so. Communication is essential to a healthy working relationship. The therapeutic environment should be one that is safe, honest, and respectful. Although we will be discussing personal and psychologically intimate information, our relationship must remain professional at all times. If you are dissatisfied with my services or feel that you have been treated unfairly or unethically, please address this with me immediately. If you do not feel that you can address these concerns with me directly you can contact the North Carolina Social Work Certification and Licensing Board at (800) 550-7009 for clarification of client's rights or to register a complaint.

### **Fees and Billing**

Individual counseling sessions will be billed at \$150 per 60-minute session. See information below for further billing rates. Any additional services (consultations with attorneys, psychological reports, letters, and phone calls lasting more than 15 minutes) will be prorated at the hourly rate. Cash and personal check are acceptable methods of payment. Fees are due at the time of service, including co-payment for third party reimbursement. Claims will be filed for in-network benefits; however, filing out of network benefits will be the sole responsibility of the client.

In order to file claims with your insurance I am required to provide a diagnosis. Not all diagnoses are covered under insurance and when a diagnosis is given it becomes part of your health records. Please be advised that when you file with insurance you may be placing yourself at risk of being diagnosed with a preexisting condition. This may present challenges for future healthcare coverage.
